

ARTHROCON 2013

12TH Summer Meet 2013

Dear Colleague,

Best regards and thank you all for the constant overwhelming response you have given us during the last decade.

Prof. Piers Yates

Arthroscopy and arthroplasty have revolutionised the practise of orthopaedics for over 50 years. Significant and dramatic advancements have occurred in this field with the deep understanding of the knowledge of the complex biomechanics of hip, knee and shoulder as well as the rapid improvements in tribology. A dynamic Surgeon always keep him updated in the basics and complexities of arthroscopy and arthroplasty.

This year we have a very special and distinguished faculty, Prof. Piers Yates head of orthopaedics and trauma, Fermantle, Kaleeya and Rockingham Hospitals.. He is also a professor of Orthopaedic Surgery at the University of Western Australia and Clinical Director of Perth Bone and Tissue Bank.

This year's programme will be highlighted with live surgical demonstrations by masters in respective fields along with detailed discussions on specific points and different case scenarios. Delegates will have an excellent opportunity to spend their time with renowned experts in the field

Dr. RAJU.K

ARTHROCON 2013

March 9th and 10th at MICC auditorium, Calicut - 673014
Programmes Starts at 8 am

Topic list

Live Demonstration of Relevant Cases

Shoulder Arthroscopy

Shoulder arthroscopy - Portals, positioning and what's normal
Shoulder instability & Clinicoradiological evaluation
Partial Rotator cuff tear - Evaluation and management
Complete Rotator cuff tear, - Evaluation and management
SLAP lesions - Evaluation and management
Biceps tenodesis - When and how
ACJ dislocations - Indications and my technique
Shoulder Scopy - Anaesthesia and Analgesia

Knee Arthroscopy

Meniscectomy - Tips and tricks
Meniscal repair - My technique (zone wise)
ACL reconstruction with hamstrings - Pearls & pitfalls
MPFL reconstruction - Indications and my technique
PLC repair and reconstruction - My technique
MCL repair and reconstruction - Indications and my technique
PCL reconstruction - Indication and my technique
Multiligamentous knee injury - What to do next?
Chondral injury - Options and evidence

Total hip replacement

THR - How to restore the offset
THR - Bearing surfaces and evidence
THR - Cemented or uncemented : current scenario
Dysplastic hip - Pearls and pitfalls
Revision THR - Femoral options
Revision THR - Acetabular options
Infected THR - My algorithm
Dislocated THR - My algorithm

HANDS ON WORK SHOP

Course Dinner : 09.03.13, 7 pm Onwards

Faculties Expected

Dr. Ashish Babhulkar (Pune)
Dr. Clement Joseph (Coimbatore)
Dr. Chandra Bose Rex (Coimbatore)
Dr. David Rajan (Coimbatore)
Prof. Gopinathan (Calicut)
Dr. Hemant Kumar Reddy (Bangalore)
Prof. KC Gopalakrishnan (Trivandrum)
Prof. Gopakumar (Trivandrum)
Dr. Jacob Varghese (Cochin)
Prof. CM kumaran (Calicut)
Dr. Mohan Kumar (Perinthalmanna)
Prof. N J Mani (Calicut)
Prof. Piers Yates (Australia)
Dr. Prathap Kumar (Cochin)
Dr. Premkumar (Trichur)
Prof. Shantharam Shetty (Mangalore)
Prof. Sarath Rao (Manipal)
Dr. Sachin Tapaswi (Pune)
Dr. Sugavanam (Salem)
Prof. Samuel Chittaranajan (Vellore)
Dr. Schiller Jose (Calicut)
Dr. Vijay Bose (Chennai)
Dr. Vivek Pandey (Manipal)
Calicut regional faculty
